Types of Bids and Interest Rates

The Bonds will be sold in one block, all or none, and no bid of less than par and accrued interest will be considered. Bidders must specify the rate or rates of interest the Bonds will bear. No interest rate in excess of ten percent (10%) will be considered. Bidders shall specify the rate or rates of interest in multiples of one-eighth (1/8) or one-twentieth (1/20) of one percent per annum. Bidders are not restricted as to the number of rates that may be named, provided that the same rate shall be specified for all bonds of the same maturity.

Basis for Award

For the purpose of awarding the Bonds, the interest cost of each bid will be computed by determining, at the rate or rates specified therein, the total of all interest on the Bonds from the date thereof to their respective maturities, and deducting therefrom the premium bid, if any. The Bonds, if sold, will be awarded to the bidder whose bid, on the basis of the above computation produces the lowest interest cost to the School District. **THE BOARD OF EDUCATION RESERVES THE RIGHT TO REJECT ALL BIDS AND TO WAIVE ANY MINOR IRREGULARITIES.**

Good Faith Deposit

Each bid must be accompanied by a Good Faith Deposit ("Deposit") in the form of a Wire Transfer or Certified or Cashier's Check made payable to "**Treasurer, Independent School District No. 19 of Carter County, Oklahoma**" in the amount of two percent (2%) of the par value of the Bonds, or **\$77,500.00**. The Deposit of the successful bidder will be retained by the School District to assure performance of the contract on the part of said bidder.

McDonald & Associates, Inc., the School District's Financial Advisor, for the School District's good faith deposit wiring instructions. The telephone number is (405) 329-0123, ext. 25, and the e-mail address is ronfisher@shmcDonald.net.

In the event said bidder should fail or refuse to take up and pay for the Bonds in accordance with his bid, then said Deposit will be cashed as full liquidated damages. Otherwise, said Deposit will be returned to the purchaser upon payment for the Bonds, or credited to the purchase price. No interest on the Deposit will accrue to the Purchaser. Checks of unsuccessful bidders will be promptly returned.

The Bonds were authorized to be issued at special elections held in the School District on the 14th day of May, 2013, the 14th day of November, 2017, and the 3rd day of April, 2018.

Proceeds from the Bonds will be used to construct, furnish, equip, and/or acquire a New Lincoln Elementary School to include, but not be limited to: concrete; construct, furnish, equip, and/or acquire a gymnasium addition at Charles Evans Elementary School to include, but not be limited to: specialties and plumbing fixtures; construct, furnish, equip, and/or acquire a new performing arts center to include, but not be limited to: site concrete; and acquire vehicles for pupil transportation, as well as to pay all legal, financial and other costs relating to the issuance of the Bonds.

The Bonds bear interest from January 1, 2021, and interest will be paid semiannually on January 1 and July 1 of each year (each an "Interest Payment Date"), commencing July 1, 2022. It is anticipated that the Bonds will be available for delivery on or about the 7th day of January, 2021.

The principal of the Bonds is payable, when due, at the designated corporate trust office of UMB Bank, n.a. (the "Registrar" and "Paying Agent"), in Oklahoma City, Oklahoma. Interest on the Bonds will be paid on each Interest Payment Date by check mailed to the registered owner thereof at the address shown on the registration books maintained by the Registrar and Paying Agent at the close of business on the 15th day of the calendar month preceding the Interest Payment Date, or if such day is a Saturday, Sunday or holiday, on the next preceding business day (the "Record Date").

The Bonds are not callable prior to their stated maturity.

Tax Status of the Bonds

It is expected that interest on the Bonds will be included in gross income for federal income tax purposes, and that interest on the Bonds will be exempt from State of Oklahoma income taxation. See the section titled “Tax Matters” herein.

Registration and Transfer

Bonds presented to the Registrar for transfer after the close of business on a Record Date and before the close of business on the next subsequent Interest Payment Date will be registered in the name of the transferee but the interest payment will be made to the registered owners shown on the books of the Registrar as of the close of business on the Record Date.

The Bonds will be initially registered in the name of Cede & Co., as nominee of The Depository Trust Company (“DTC”), New York, New York, which will act as securities depository for the Bonds. Principal and interest on the Bonds will be paid by the Paying Agent and Registrar to DTC. Disbursements of such payments to the DTC Participants is the responsibility of DTC and disbursement of such payments to the Beneficial Owners is the responsibility of the DTC Participants and the Indirect Participants, as more fully described in the section titled “Book-Entry System.”

Book-Entry System

THE INFORMATION IN THIS SECTION, “BOOK-ENTRY SYSTEM”, HAS BEEN FURNISHED BY THE DEPOSITORY TRUST COMPANY. NO REPRESENTATION IS MADE BY THE SCHOOL DISTRICT AS TO THE COMPLETENESS OR ACCURACY OF SUCH INFORMATION. THE SCHOOL DISTRICT SHALL HAVE NO RESPONSIBILITY OR OBLIGATION TO DTC PARTICIPANTS, INDIRECT PARTICIPANTS OR THE PERSONS FOR WHICH THEY ACT AS NOMINEES WITH RESPECT TO THE BONDS, OR FOR ANY PRINCIPAL, PREMIUM, IF ANY, OR INTEREST PAYMENT THEREOF.

The Depository Trust Company (“DTC”), New York, NY, will act as securities depository for the Bonds. The Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Bond certificate will be issued for each maturity of the Bonds in the aggregate principal amount of each such maturity, and will be deposited with DTC at the office of the Paying Agent and Registrar on behalf of DTC utilizing the DTC FAST system of registration.

DTC, the world’s largest depository, is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 2.2 million issues of U.S. and non-U.S. equity, corporate and municipal debt issues, and money market instrument from over 100 countries that DTC’s participants (“Direct Participants”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants

include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC, in turn, is owned by a number of Direct Participants of DTC and Members of the National Securities Clearing Corporation, Fixed Income Clearing Corporation, and Emerging Markets Clearing Corporation (NSCC, FICC, AND EMCC, also subsidiaries of DTCC), as well as by the New York Stock Exchange, Inc., the American Stock Exchange LLC, and the National Association of Securities Dealers, Inc. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). DTC has a rating of “AA+” from S&P Global Ratings, a Standard and Poor’s Financial Services LLC business. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com and www.dtc.org.

Purchases of the Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC’s records. The ownership interest of each actual purchaser of each Bond (“Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC (or the Paying Agent and Registrar on behalf of DTC utilizing the DTC FAST system of registration) are registered in the name of DTC’s partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC (or the Paying Agent and Registrar on behalf of DTC utilizing the DTC FAST system of registration) and their registration in the name of Cede & Co. or such other nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC’s records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. (nor such other DTC nominee) will consent or vote with respect to the Bonds unless authorized by a Direct Participant in accordance with DTC’s Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the School District as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.’s consenting or voting rights to those Direct Participants to whose accounts the Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

All payments on the Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC’s practice is to credit Direct Participants’ accounts, upon DTC’s receipt of funds and corresponding detail information from the School District or Agent on payable date in accordance with their respective holdings shown on DTC’s

records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, Agent, or the School District, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of any payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the School District or Agent. Disbursement of such payments to Direct Participants shall be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners shall be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the Bonds at any time by giving reasonable notice to the School District or Agent. Under such circumstances, the event that a successor securities depository is not obtained, Bond certificates are required to be printed and delivered.

The School District may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Bond certificates will be printed and delivered to DTC.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the School District believes to be reliable, but the School District takes no responsibility for the accuracy thereof.

Security and Source of Payment

The Bonds, in the opinion of Bond Counsel, are direct and general obligations of the School District and are payable as to both principal and interest from ad valorem taxes to be levied against all taxable property within the School District, without limitation as to rate or amount.

Ad valorem taxes for the Bonds shall be levied annually beginning in Fiscal Year 2021-22, shall become delinquent one-half on January 1 and one-half on April 1 of each year, and are required to be collected by the County Treasurer, apportioned and paid over to the School District Treasurer, and then deposited directly and only into the Sinking Fund of the School District. IN NO EVENT MAY SUCH AD VALOREM TAXES BE DEPOSITED INTO THE GENERAL FUND OR ANY FUND OF THE SCHOOL DISTRICT OTHER THAN THE SINKING FUND.

As stated above, the Bonds are payable from ad valorem taxes on all taxable property within the School District including real, personal and public service property, and any other moneys available for such purpose. Real and personal property in the School District is currently assessed at a rate of approximately 11% of estimated full market value. Public service property assessments are determined by the Oklahoma State Tax Commission, and currently the assessment ratio is approximately 11.84% of estimated full market value of airline and railroad property and 22.85% of estimated full market value of all other public service property. Pursuant to Oklahoma statutes, County Assessors are required to reassess property within the County at least once each five years. The School District is required to pay its proportionate share of the cost of such reassessment.

Ad valorem tax rates for Sinking Fund purposes are determined by ascertaining the actual dollars of revenues required for payment of principal and interest on indebtedness, fees to fiscal and paying agents and judicial judgments. Such total amount may be reduced by any surplus from the prior fiscal year and any contributions made into the Sinking Fund. To the resulting net requirements a reserve for delinquent taxes, in an amount of not less than 5% nor more than 20% of the net required tax collection, shall be added to the required collections. Such final total

requirements shall then be divided by the total net assessed valuation of all real, personal and public service property in order to determine the appropriate tax rate for each property owner.

One hundred percent (100%) of the School District's Sinking (Debt Service) Fund revenues come from locally collected ad valorem taxes. None of these ad valorem taxes are collected or disbursed by the State of Oklahoma. Furthermore, as stated above, Sinking Fund taxes are collected by the County Treasurers of the counties in which the School District is situated, are apportioned and paid over to the School District Treasurer and cannot, by Oklahoma Law, be placed in any fund of the School District other than the Sinking Fund. They may be used only for the payment of principal of and interest on indebtedness (including judicial judgments) of the School District.

FINANCIAL MATTERS

Ad Valorem Taxes

Taxable property in the State of Oklahoma (the "State") is placed in one of three classifications: real property, personal property, and public service property. Assessment ratios for real and personal property are determined locally by each County Assessor within guidelines established by the State Board of Equalization and the Oklahoma Tax Commission. Real property assessment ratios may range from 11% to 13.5% of full market value, and personal property assessment ratios may range from 10% to 15%. The assessment ratio for public service property is determined on a statewide basis by the Oklahoma Tax Commission. Currently, real and personal property in the County is assessed at a ratio of 12% of full market value. Public service property is assessed at a ratio of 11.84% of estimated full market value of airline and railroad property and 22.85% of estimated full market value of all other public service property. County Assessors are required to reassess property within the County at least once each five years. The School District is required to pay its proportionate share of the cost of such reassessment.

School districts in Oklahoma are limited to a total of thirty-five (35) mills ad valorem tax for operating (General Fund) purposes, and five (5) mills for Building Fund purposes. In addition, Oklahoma statutes require that the School District each year make an ad valorem tax levy for a Sinking Fund which shall, with cash and investments in the fund, be sufficient to pay all the bonded indebtedness, interest and one-third of all outstanding judgments coming due in the following year. Such funds are placed in the School District's Sinking Fund and are expended only for these purposes. The ad valorem tax rates for Sinking Fund purposes are determined by ascertaining the actual dollars of revenues required for payment of principal and interest on indebtedness and judicial judgments. Such total amount may be reduced by any surplus from the prior fiscal year and any contributions made into the Sinking Fund in lieu of ad valorem taxes. To the resulting net requirements a reserve for delinquent taxes, in an amount of not less than 5% nor more than 20% of the net required tax collection, shall be added to the required collections. Such final total requirements shall then be divided by the total net assessed valuation of all taxable property in order to determine the appropriate tax rate for each property owner.

After review and approval by the Board of Education, copies of the Sinking Fund Estimate are submitted to the County Excise Board to determine the ad valorem tax levy and appropriations. This submission is required to be made by August 27th of each year. The estimates are for the purposes of determining ad valorem taxes required to fund the General, Building, and Sinking Funds. The amounts contained in the Estimate of Needs are verified by the County Excise Board and, upon verification, the levy contained therein is ordered to be certified to the County Assessor in order that the County Assessor may extend said levy upon the tax rolls for the year for which the Estimate of Needs is submitted. While the County Excise Board may make recommendations with respect to the levy request, it only has the authority to change the reserve for delinquent taxes.

The County Assessor is required to file a tax roll report on or before October 1 of each year with the County Treasurer indicating the net assessed valuation for each municipality within the County. This report includes the assessed valuation for all real, personal and public service property. The County Treasurer has fifteen days after receipt of the tax roll report to start collecting taxes. The first half of taxes is due and payable on November 1 of each year. The second half is due and payable on or before April 1 of each year. However, if the first half is not paid by January 1, both first and second half are declared delinquent as of January 1. If the first half taxes are paid in a timely manner and the second half taxes are not paid on or before April 1, the taxes are considered delinquent. Interest accrues on delinquent taxes at the rate of 1.5% monthly (18% annually), to a maximum of 100% of the taxes due and owing, until such time as the delinquent taxes are paid. In the event taxes and accrued interest are not paid, the property is sold at tax sale on October 1 and the purchaser is issued a certificate of tax lien; however, the original owner of the property has two years in which to redeem the property by paying the taxes, interest and penalties owed. If, at the end of two years he has not done so, the purchaser may then apply for a deed to the property. If there is no purchaser, then the county acquires the same lien and the property is auctioned after approximately two and one-half years.

Compliance with Constitutional Debt Limitation

The current, summary debt statement of the School District revised from that filed with the State of Oklahoma as of June 30, 2020, is shown below:

2020-21 Estimated Full Market Value	\$1,710,534,010
2020-21 Assessed Valuation, including Homestead Exemptions	\$193,206,865

The County or Counties indicated below, if any, have held an election under Oklahoma Constitution Article X, §6(B) approving an exemption of certain household and personal property from ad valorem taxation. Accordingly, said County or Counties have calculated the “millage adjustment factor” to be applied to debt percentage limits under Article 10, Section 26(b), resulting in an adjusted debt limit. The adjusted debt limit is as follows:

County	Net Assessed Valuation	District Unadjusted Legal Debt Limit (1)	Millage Adjustment Factor (If App.)	District Adjusted Legal Debt Limit (2)
Carter County	\$188,589,695	\$18,858,969.50	1.02374100000	<u>\$19,306,700.29</u>

LITIGATION

To the knowledge of the School District, there is no litigation pending seeking to restrain or enjoin the issuance or delivery of the Bonds or questioning or affecting the legality of the Bonds or proceedings and authority under which the Bonds are to be issued. There is no litigation pending which in any manner questions the right of the School District to construct or finance the proposed improvements.

LEGAL MATTERS

All matters incident to the authorization and issuance of the Bonds are subject to the approval of the Attorney General of the State of Oklahoma and to the approval of Bond Counsel selected by the Underwriters. Bond Counsel has not participated in the preparation of the Official Statement. Accordingly, Bond Counsel has no responsibility for the accuracy, sufficiency or completeness of any information furnished in connection with any offer or sale of the Bonds.

CONTINUING DISCLOSURE

The School District has covenanted for the benefit of Bondholders to provide certain financial and operating information for the School District not later than ten months following the end of the fiscal year in which the bonds are issued (as of the date of this document, June 30 is the end of the fiscal year), or later as such information becomes publicly available, and each fiscal year thereafter, and to provide notice of the occurrence of certain events. The specific nature of the financial information and operating data to be provided and the events for which notice must be provided is described in the Continuing Disclosure Certificate (the "Disclosure Certificate"), the form of which is attached hereto as Appendix A. These covenants have been made in order to assist the Underwriters in complying with Rule 15c2-12 promulgated by the Securities and Exchange Commission ("Rule 15c2-12").

The financial information and event notices will be filed by the School District or its dissemination agent with the Municipal Securities Rulemaking Board (the "MSRB") through the MSRB's Electronic Municipal Market Access system ("EMMA"). EMMA is an internet-based,

online portal for free investor access to municipal bond information, including offering documents, material event notices, real-time municipal securities trade prices and MSRB education resources, available at www.emma.msrb.org. Nothing contained on EMMA relating to the School District or the Bonds is incorporated by reference in this Official Statement.

A failure by the School District to comply with the Continuing Disclosure Certificate will not constitute an event of default with respect to the Bonds, although any holder will have any available remedy at law or in equity, including seeking specific performance by court order, to cause the School District to comply with its obligations under the Continuing Disclosure Certificate. Any such failure must be reported in accordance with Rule 15c2-12 and must be considered by any broker, dealer or municipal securities dealer before recommending the purchase or sale of the Bonds in the secondary market. Consequently, such a failure may adversely affect the transferability and liquidity of the Bonds and their market price.

Rule 15c2-12 requires that an issuer or other obligated party disclose in its official statement any instances in the previous five years in which such issuer or obligated party failed to comply, in all material respects, with any previous undertakings in a written contract or agreement specified in paragraph (b)(5) or (d)(2) of the Rule. In connection with one or more of the District's previous bond issues or bond issues of an authority issued on behalf of the District, the District entered into individual continuing disclosure undertakings ("Undertakings") in written agreements specified in paragraph (b)(5)(i) or (d)(2) of the Rule. The District does not believe it has failed to comply, in all material respects, with any of these Undertakings within the previous five years.

POTENTIAL IMPACT OF COVID-19

The World Health Organization has declared a pandemic following the outbreak of COVID-19, a respiratory disease caused by a new strain of coronavirus. On March 13, 2020, President Donald Trump declared a national emergency to unlock federal funds to help states and local governments fight the pandemic. On March 17, 2020, Oklahoma Governor J. Kevin Stitt declared a state of emergency, directing all State departments and agencies available to meet this emergency to use all resources necessary to prepare for and respond to COVID-19 and to protect the health and safety of the public. The current spread of COVID-19 is altering the behavior of businesses and people in a manner that may have negative effects on economic activity, and therefore adversely affect the financial condition of the School District, either directly or indirectly.

As mentioned previously in the section titled "Security and Source of Payment," the Bonds, in the opinion of Bond Counsel, are direct and general obligations of the School District and **are payable as to both principal and interest from ad valorem taxes to be levied against all taxable property within the School District, without limitation as to rate or amount.** Ad valorem tax rates for Sinking Fund purposes are determined by ascertaining the actual dollars of revenues required for payment of principal and interest on indebtedness, fees to fiscal and paying agents and judicial judgments. Such total amount may be reduced by any surplus from the prior fiscal year and any contributions made into the Sinking Fund. To the resulting net requirements, a reserve for delinquent taxes, in an amount of not less than 5% nor more than 20% of the net required tax collection, shall be added to the required collections. Such final total requirements shall then be divided by the total net assessed valuation of all real, personal and public service property in order to determine the appropriate tax rate for each property owner. One hundred percent (100%) of the School District's Sinking (Debt Service) Fund revenues come from locally collected ad valorem taxes, not sales or use taxes or State of Oklahoma revenues. The School District also has the ability to increase the "overlevy for delinquencies" up to 20%.

TAX MATTERS

Tax Opinions

In the opinion of bond counsel, interest on the Bonds is included in gross income for federal income tax purposes.

In the opinion of bond counsel, interest on the Bonds is exempt from State of Oklahoma income taxation under present law.

Bond Counsel has expressed no opinion regarding other tax consequences arising with respect to the Bonds under the laws of the State or any other state or jurisdiction.

General Matters

The following is a summary of certain anticipated federal income tax consequences of the purchase, ownership and disposition of the Bonds under the Code and the Regulations, and the judicial and administrative rulings and court decisions now in effect, all of which are subject to change or possible differing interpretations. The summary does not purport to address all aspects of federal income taxation that may affect particular investors in light of their individual circumstances, nor certain types of investors subject to special treatment under the federal income tax laws. Potential purchasers of the Bonds should consult their own tax advisors in determining the federal, state or local tax consequences to them of the purchase, holding and disposition of the Bonds.

In general, interest paid on the Bonds, original issue discount, if any, and market discount, if any, will be treated as ordinary income to the owners of the Bonds, and principal payments (excluding the portion of such payments, if any, characterized as original issue discount or accrued market discount) will be treated as a return of capital.

Bond Premium

An investor which acquires a Bond for a cost greater than its remaining stated redemption price at maturity and holds such Bond as a capital asset will be considered to have purchased such Bond at a premium and, subject to prior election permitted by Section 171(c) of the Code, may generally amortize such premium under the constant yield method. Except as may be provided by regulation, amortized premium will be allocated among, and treated as an offset to, interest payments. The basis reduction requirements of Section 1016(a)(5) of the Code apply to amortizable Bond premium that reduces interest payments under Section 171 of the Code. Bond premium is generally amortized over the Bond's term using constant yield principles, based on the purchaser's yield to maturity. Investors of any Bond purchased with a Bond premium should consult their own tax advisors as to the effect of such Bond premium with respect to their own tax situation and as to the treatment of Bond premium for state tax purposes.

Market Discount

An investor that acquires a Bond for a price less than the adjusted issue price of such Bond (or an investor who purchases a Bond in the initial offering at a price less than the issue price) may be subject to the market discount rules of Sections 1276 through 1278 of the Code. Under these sections and the principles applied by the Regulations, "market discount" means (a) in the case of a Bond originally issued at a discount, the amount by which the issue price of such Bond, increased by all accrued original issue discount (as if held since the issue date), exceeds the initial tax basis of the owner therein, less any prior payments that did not constitute payments of qualified stated interest, and (b) in the case of a Bond not originally issued at a discount, the amount by which the

stated redemption price of such Bond at maturity exceeds the initial tax basis of the owner therein. Under Section 1276 of the Code, the owner of such a Bond will generally be required (i) to allocate each principal payment to accrued market discount not previously included in income and, upon sale or other disposition of the Bond, to recognize the gain on such sale or disposition as ordinary income to the extent of such cumulative amount of accrued market discount as of the date of sale or other disposition of such a Bond or (ii) to elect to include such market discount in income currently as it accrues on all market discount instruments acquired by such owner on or after the first day of the taxable year to which such election applies.

The Code authorizes the Treasury Department to issue regulations providing for the method for accruing market discount on debt instruments the principal of which is payable in more than one installment. Until such time as regulations are issued by the Treasury Department, certain rules described in the legislative history will apply. Under those rules, market discount will be included in income either (a) on a constant interest basis or (b) in proportion to the accrual of stated interest or, in the case of a Bond with original issue discount, in proportion to the accrual of original issue discount.

An owner of a Bond that acquired such Bond at a market discount also may be required to defer, until the maturity date of such Bond or its earlier disposition in a taxable transaction, the deduction of a portion of the amount of interest that the owner paid or accrued during the taxable year on indebtedness incurred or maintained to purchase or carry such Bond in excess of the aggregate amount of interest (including original issue discount) includable in such owner's gross income for the taxable year with respect to such Bond. The amount of such net interest expense deferred in a taxable year may not exceed the amount of market discount accrued on the Bond for the days during the taxable year on which the owner held such Bond and, in general, would be deductible when such market discount is includable in income. The amount of any remaining deferred deduction is to be taken into account in the taxable year in which the Bond matures or is disposed of in a taxable transaction. In the case of a disposition in which gain or loss is not recognized in whole or in part, any remaining deferred deduction will be allowed to the extent gain is recognized on the disposition. This deferral rule does not apply if the owner elects to include such market discount in income currently as it accrues on all market discount obligations acquired by such owner in that taxable year or thereafter.

Attention is called to the fact that Treasury regulations implementing the market discount rules have not yet been issued. Therefore, investors should consult their own tax advisors regarding the application of these rules as well as the advisability of making any of the elections with respect thereto.

Sales or Other Dispositions

If an owner of a Bond sells the Bond, such person will recognize gain or loss equal to the difference between the amount realized on such sale and such owner's basis in such Bond. Ordinarily, such gain or loss will be treated as a capital gain or loss. At the present time, the maximum capital gains rate for certain assets held for more than 12 months is 15%. However, if a Bond was, at its initial issuance, sold at a discount, a portion of such gain will be recharacterized as interest and therefore ordinary income. Neither the School District nor Bond Counsel can predict whether the President or Congress will propose legislation effecting the long-term capital gains rate.

If the terms of a Bond were materially modified, in certain circumstances, a new debt obligation would be deemed created and exchanged for the prior obligation in a taxable transaction. Among the modifications that may be treated as material are those that relate to redemption provisions and, in the case of a nonrecourse obligation, those which involve the substitution of collateral. Each potential owner of a Bond should consult its own tax advisor concerning the

circumstances in which such Bond would be deemed reissued and the likely effects, if any, of such reissuance.

Defeasance

The legal defeasance of the Bonds may result in a deemed sale or exchange of such Bond under certain circumstances. Owners of such Bonds should consult their tax advisors as to the federal income tax consequences of such a defeasance.

Backup Withholding

An owner of a Bond may be subject to backup withholding at the applicable rate determined by statute with respect to interest paid with respect to the Bonds, if such owner, upon issuance of the Bonds, fails to provide to any person required to collect such information pursuant to Section 6049 of the Code with such owner's taxpayer identification number, furnishes an incorrect taxpayer identification number, fails to report interest, dividends or other "reportable payments" (as defined in the Code) properly, or, under certain circumstances, fails to provide such persons with a certified statement, under penalty of perjury, that such owner is not subject to backup withholding.

Foreign Investors

An owner of a Bond that is not a "United States person" (as defined below) and is not subject to federal income tax as a result of any direct or indirect connection to the United States of America in addition to its ownership of a Bond will generally not be subject to United States income or withholding tax in respect of a payment on a Bond, provided that the owner complies to the extent necessary with certain identification requirements (including delivery of a statement, signed by the owner under penalties of perjury, certifying that such owner is not a United States person and providing the name and address of such owner). For this purpose the term "United States person" means a citizen or resident of the United States of America, a corporation, partnership or other entity created or organized in or under the laws of the United States of America or any political subdivision thereof, or an estate or trust whose income from sources within the United States of America is includable in gross income for United States of America income tax purposes regardless of its connection with the conduct of a trade or business within the United States of America.

Except as explained in the preceding paragraph and subject to the provisions of any applicable tax treaty, a 30% United States withholding tax will apply to interest paid and original issue discount accruing on Bonds owned by foreign investors. In those instances in which payments of interest on the Bonds continue to be subject to withholding, special rules apply with respect to the withholding of tax on payments of interest on, or the sale or exchange of Bonds having original issue discount and held by foreign investors. Potential investors that are foreign persons should consult their own tax advisors regarding the specific tax consequences to them of owning a Bond.

Tax-Exempt Investors

In general, an entity that is exempt from federal income tax under the provisions of Section 501 of the Code is subject to tax on its unrelated business taxable income. An unrelated trade or business is any trade or business that is not substantially related to the purpose that forms the basis for such entity's exemption. However, under the provisions of Section 512 of the Code, interest may be excluded from the calculation of unrelated business taxable income unless the obligation that gave rise to such interest is subject to acquisition indebtedness. Therefore, except to the extent any owner of a Bond incurs acquisition indebtedness with respect to such Bond, interest paid or

accrued with respect to such owner may be excluded by such tax-exempt owner from the calculation of unrelated business taxable income. Each potential tax-exempt holder of a Bond is urged to consult its own tax advisor regarding the application of these provisions.

ERISA Considerations

The Employee Retirement Income Security Act of 1974, as amended (“ERISA”), imposes certain requirements on “employee benefit plans” (as defined in Section 3(3) of ERISA) subject to ERISA, including entities such as collective investment funds and separate accounts whose underlying assets include the assets of such plans (collectively, “ERISA Plans”) and on those persons who are fiduciaries with respect to ERISA Plans. Investments by ERISA Plans are subject to ERISA’s general fiduciary requirements, including the requirement of investment prudence and diversification and the requirement that an ERISA Plan’s investments be made in accordance with the documents governing the ERISA Plan. The prudence of any investment by an ERISA Plan in the Bonds must be determined by the responsible fiduciary of the ERISA Plan by taking into account the ERISA Plan’s particular circumstances and all of the facts and circumstances of the investment. Government and non-electing church plans are generally not subject to ERISA. However, such plans may be subject to similar or other restrictions under state or local law.

In addition, ERISA and the Code generally prohibit certain transactions between an ERISA Plan or a qualified employee benefit plan under the Code and persons who, with respect to that plan, are fiduciaries or other “parties in interest” within the meaning of ERISA or “disqualified persons” within the meaning of the Code. In the absence of an applicable statutory, class or administrative exemption, transactions between an ERISA Plan and a party in interest with respect to an ERISA Plan, including the acquisition by one from the other of the Bonds could be viewed as violating those prohibitions. In addition, Section 4975 of the Code prohibits transactions between certain tax-favored vehicles such as Individual Retirement Accounts and disqualified persons. Section 503 of the Code includes similar restrictions with respect to governmental and church plans. In this regard, the Authority or any dealer of the Bonds might be considered or might become a “party in interest” within the meaning of ERISA or a “disqualified person” within the meaning of the Code, with respect to an ERISA Plan or a plan or arrangement subject to Sections 4975 or 503 of the Code. Prohibited transactions within the meaning of ERISA and the Code may arise if the Bonds are acquired by such plans or arrangements with respect to which the Authority or any dealer is a party in interest or disqualified person.

In all events, fiduciaries of ERISA Plans and plans or arrangements subject to the above sections of the Code, in consultation with their advisors, should carefully consider the impact of ERISA and the Code on an investment in the Bonds. The sale of the Bonds to a plan is in no respect a representation by the School District that such an investment meets the relevant legal requirements with respect to benefit plans generally or any particular plan. Any plan proposing to invest in the Bonds should consult with its counsel to confirm that such investment is permitted under the plan documents and will not result in a non-exempt prohibited transaction and will satisfy the other requirements of ERISA, the Code and other applicable law.

Health Care and Education Reconciliation Act of 2010

Pursuant to Section 1411 of the Code, as enacted by the Health Care and Education Reconciliation Act of 2010, an additional tax is imposed on individuals beginning January 1, 2013. The additional tax is 3.8% of the lesser of (i) net investment income (defined as gross income from interest, dividends, net gain from disposition of property not used in a trade or business, and certain other listed items of gross income), or (ii) the excess of “modified adjusted gross income” of the individual over \$200,000 for unmarried individuals (\$250,000 for married couples filing a joint return and a surviving spouse). Holders of the Bonds should consult with their tax advisor

concerning this additional tax as it may apply to interest earned on the Bonds as well as gain on the sale of a Bond.

Changes in Federal and State Tax Law

From time to time, there are legislative proposals in the Congress and in the states that, if enacted, could alter or amend the federal and state tax matters referred to above or adversely affect the market value of the Bonds. It cannot be predicted whether or in what form any such proposal might be enacted or whether if enacted it would apply to indebtedness issued prior to enactment. In addition, regulatory actions are from time to time announced or proposed and litigation is threatened or commenced which, if implemented or concluded in a particular manner, could adversely affect the market value of the Bonds. It cannot be predicted whether any such regulatory action will be implemented, how any particular litigation or judicial action will be resolved, or whether the Bonds or the market value thereof would be impacted thereby. Purchasers of the Bonds should consult their tax advisors regarding any pending or proposed legislation, regulatory initiatives or litigation. The opinions expressed by Bond Counsel are based on existing legislation and regulations as interpreted by relevant judicial and regulatory authorities as of the date of issuance and delivery of the Bonds, and Bond Counsel expresses no opinion as of any date subsequent thereto or with respect to any pending legislation, regulatory initiatives or litigation.

Notwithstanding any other provision of the Disclosure Certificate, the Issuer may amend this Disclosure Certificate, and any provision of this Disclosure Certificate may be waived, if such amendment or waiver is supported by an opinion of counsel expert in federal securities laws, to the effect that such amendment or waiver would not, in and of itself, cause the undertakings herein to violate the Rule if such amendment or waiver had been effective on the date hereof but taking into account any subsequent change in or official interpretation of the Rule.

SECTION 9. Additional Information. Nothing in this Disclosure Certificate shall be deemed to prevent the Issuer from disseminating any other information, using the means of dissemination set forth in this Disclosure Certificate or any other means of communication, or including any other information in any Annual Report or notice of occurrence of a Listed Event, in addition to that which is required by this Disclosure Certificate. If the Issuer chooses to include any information in any Annual Report or notice of occurrence of a Listed Event in addition to that which is specifically required by this Disclosure Certificate, the Issuer shall have no obligation under this Disclosure Certificate to update such information or include it in any future Annual Report or notice of occurrence of a Listed Event.

order, to cause the Issuer to comply with its obligations under this Disclosure Certificate. A default under this Disclosure Certificate shall not be deemed an event of default under the Resolution, and the sole remedy under this Disclosure Certificate in the event of any failure of the Issuer to comply with this Disclosure Certificate shall be an action to compel performance.

The Dissemination Agent shall have only such duties as are specifically set forth in this Disclosure Certificate, and the Issuer agrees to indemnify and save the Dissemination Agent, its officers, directors, employees and agents, harmless against any loss, expense and liabilities which it may incur arising out of or in the exercise or performance of its powers and duties hereunder, including the costs and expenses (including attorney's fees) of defending against any claim of liability, but excluding liabilities due to the Dissemination Agent's negligence or willful misconduct. Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Oklahoma State Department of Education described in Note I. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the entity's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* include the statement of net position – regulatory basis and the statement of activities – regulatory basis and are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position – regulatory basis* presents information on all of the District's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities – regulatory basis* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported using the regulatory basis of accounting whereby revenues represent cash receipts collected by June 30th and expenditures represent cash disbursements modified by encumbrances, investments, inventories, capital assets, depreciation, and long-term debt.

Overview of the Financial Statements (Continued)

The governmental activities of the District include instruction, supporting services, non-instruction services, capital outlay, and other outlays. These functions are principally supported by State of Oklahoma appropriations, grants and fees.

The government-wide financial statements can be found on pages 15-16 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District only has governmental funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on cash collections and encumbrances, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet – regulatory basis and the governmental fund statement of revenues, expenditures, and changes in fund balances – regulatory basis provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains seventeen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Building Fund, Sinking Fund, and CCPFA 2018 Bond Fund which are considered to be major funds. Data from the other thirteen governmental funds are combined into an aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The District adopts an annual appropriated budget for its general fund, building fund, child nutrition fund, coop fund, and sinking fund. A budgetary comparison statement has been provided for the general fund and all major funds to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 17-18 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 20-35 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *other information* concerning the District's budget to actual schedules on major governmental funds, combining and individual fund statements and schedules. Other information can be found on pages 37-46 of this report.

The District's Cash and Cash Equivalents increased by \$3,649,553, primarily due to issuance of General Obligation Bonds.

Restricted Cash of \$27,021,682 consists of unused cash from the advanced lease revenue bonds from the Carter County Public Facilities Authority (CCPFA) 2013 lease (\$128,999) and the CCPFA 2018 lease (\$26,892,683).

Construction in Progress of \$2,199,510 includes the following site improvement projects:

New Performing Arts Center	\$ 1,761,868
Jefferson Elementary Gym, Secure Entry, Bus Lane and Parking	<u>437,642</u>
	<u>\$ 2,199,510</u>

Long-Term Liabilities include \$10,865,000 of general obligation bonds and \$41,190,000 of advanced lease revenue bonds from the Carter County Public Facilities Authority (CCPFA) 2013 and 2018 leases. These liabilities were incurred for the purpose of constructing, equipping, repairing and remodeling school buildings, acquiring school furniture, fixtures and equipment, acquiring and improving school sites, and purchasing school buses. These financing arrangements are described in Notes V and X of the footnotes.

(UNAUDITED)

Government-wide Financial Analysis (Continued)

The District's Operating Grants and Contributions had a net decrease of \$237,931 during the year ended June 30, 2019, due to the timing of federal claim reimbursements which were offset by several one-time donations.

Property taxes levied for general purposes and building purposes increased \$273,044 and \$39,016, respectively, during the year ended June 30, 2019, primarily due to an increase of 4.7% in property valuations.

Property taxes levied for sinking fund purposes increased \$1,255,847 during the year ended June 30, 2019, due to an increase of outstanding bond debt.

General taxes increased \$254,346 primarily due to an increase in Gross Production Taxes.

Investment earnings increased \$548,940 due to interest on CCPFA 2018 funds and Sinking Fund.

State Aid – Noncategorical revenues increased \$848,947 primarily due to the effects of the following categories in the state aid formula: increase in state aid factors (\$1,914,513), decrease in weighted ADM (\$654,385), increase in ad valorem chargeable (\$281,904), increase in other chargeables (\$88,431), and a reduction of returned FY17 state aid (\$31,543). In addition to the increase in the state aid formula, there was a decrease in flexible benefit allowance of \$9,303.

The \$2,797 Gain on Disposal of Assets for the year ended June 30, 2019, is primarily attributable to the sale of older vehicles.

Miscellaneous Revenues increased \$2,924,286 primarily due to the premium received on the 2018 CCPFA lease revenue bonds.

Instruction expenses increased \$919,546 primarily due to an increase in salaries (\$1,213,175) as a result of staffing changes and state-mandated pay raises required by HB 1023 and HB 1026 which were enacted into Oklahoma law during the 2018 legislative session. These salary increases were offset by a decrease in technology purchases.

Support Services increased \$1,567,800 primarily due to the bond issuance costs of the CCPFA 2018 lease revenue series bonds (\$821,932) and an increase in salaries (\$741,290) as a result of staffing changes and state-mandated pay raises as described in the preceding paragraph.

Operation of Noninstructional Services increased \$121,565 primarily due to an increase in salaries (\$99,421) as a result of staffing changes and state-mandated pay raises as described in the preceding paragraph.

Management's Discussion and Analysis
June 30, 2019
(UNAUDITED)

Facilities Acquisition and Construction Services decreased \$44,175 due to architectural services provided in the prior fiscal year to assist with the drawings and costs for the Performing Arts Center and replacement of doors.

Interest on Long-Term Debt of \$1,298,267 includes \$1,198,797 interest on the 2013 and 2018 CCPFA lease revenue bonds and \$99,470 on general obligation bonds.

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's *governmental funds* is to provide information on cash collections and encumbrances, as well as balances of spendable resources available at the end of the fiscal year. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$40,464,082, an increase of \$30,792,695 in comparison with the prior year. This amount includes \$1,029,858, *unassigned fund balance*, which is available for spending at the District's discretion.

The general fund is the chief operating fund of the District. At the end of the current fiscal year, total fund balance of the general fund was \$1,375,851, of which \$345,993 was restricted by state statute, donors and external grantors.

General Fund Budgetary Comparisons

The District budgets conservatively. Revenues are budgeted based upon statutorily-limited amounts equaling 90% of the prior year's collections; approved millage rates for ad valorem taxes; and approved allocation amounts from federal, state, and local grantors. Expenditures and carryover are budgeted based upon the legal appropriations approved by the county excise board.

During fiscal year ended June 30, 2019, General Fund property tax revenue was \$193,098 greater than the budgeted amount, reflecting a 3% increase in revenues. This increase is due to an increase in collections of prior years' taxes and current year taxes collected above the 10% allowance for delinquent accounts.

State revenues increased \$184,446 primarily due to an increase in Gross Production Tax of \$358,010, an increase of \$97,273 in Motor Vehicle taxes offset by a decrease of \$298,988 in State Foundation and Salary Incentive Aid.

ARDMORE SCHOOL DISTRICT NO. I-19
Management's Discussion and Analysis
June 30, 2019
(UNAUDITED)

Federal revenues decreased \$11,029 primarily due to the timing of federal claim reimbursements.

Other revenues increased \$407,527 primarily due to collection of several one-time local grants, advanced funding of a grant for school nurses, and sales of school supply kits.

General fund actual instruction expenditures were \$474,552 less than budgeted instruction expenditures due to the District's conservative approach to carryover fund balance to the next fiscal year.

Capital Asset and Debt Administration

Capital assets. The District's investment in capital assets for its governmental activities as of June 30, 2019, amounts to \$47,415,647 (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings, buses, vehicles, machinery and equipment, and construction in progress. The net increase in the District's capital assets for the current fiscal year was \$1,604,763.

Reconciliation of Statement of Revenues, Expenditures and Changes in Fund
Balances – Governmental Funds – Regulatory Basis to the Statement of Activities – Regulatory Basis
For the Year Ended June 30, 2019

*Amounts reported for governmental activities
in the statement of activities are different because:*

Net change in fund balances - total governmental funds \$ 30,792,695

Governmental funds report capital outlays as expenditures. However, in the statement of activities the costs of those assets are allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense exceeded capital outlays in the current period.

Capital Outlay	\$ 3,724,564	
Depreciation Expense	<u>(2,108,398)</u>	1,616,166

The net effect of various miscellaneous transactions involving capital assets (I.e., sales, trade-ins, disposals and donations) is to decrease net position.

(11,403)

Bond proceeds are reported as financing sources in governmental funds and thus contribute to the change in fund balance. However, in the statement of net position issuing debt increases long term liabilities and does not affect the statement of activities. Similarly, repayment of principal is an expenditure in the governmental funds but reduces the liability in the statement of net position.

Debt repayments this year exceeds debt issued:

Debt Issued	(32,970,000)	
Debt Repayments	<u>2,605,000</u>	(30,365,000)

The repayment of the principal on capital leases consumes current financial resources of government funds. However this transaction does not have an effect on net position.

Financial Statement Presentation

The District prepares its financial statements in a presentation format that is, in substance, the format established by the Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statement-Management’s Discussion and Analysis-for State and Local Governments*.

GASB Statement No. 34 established a financial reporting model for state and local governments that included the addition of management’s discussion and analysis, government-wide financial statements, required supplementary information and the elimination of the effects of internal service activities and the use of account groups to the already required fund financial statements and notes.

Government-Wide and Fund Financial Statements

The District’s basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District’s major funds). Both government-wide and fund financial statements categorize primary activities as either governmental or business type. Governmental activities include programs primarily supported by taxes, State aid, grants and other intergovernmental revenue. The District does not have any activities classified as business-type. The government-wide focus is more on the sustainability of the District as an entity and the change in the District’s net position resulting from current year’s activities.

Government-Wide Financial Statements: In the government-wide Statement of Net Position-regulatory basis, the District’s governmental activities are reported on cash receipts and disbursement basis modified as required by regulations of the Oklahoma Department of Education to include fixed assets, long-term debt and obligations. The District’s net position is reported in three parts: net investment in capital assets, restricted net position and unrestricted net position.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The government-wide Statement of Activities – regulatory basis reports both the gross and net cost of each of the District’s programs and functions. The functions are also supported by general government revenues. The Statement of Activities – regulatory basis reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to students, faculty, individuals, or other school districts that purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, interest, transfers and other items not properly included among program revenues are reported instead as *general revenues*.

All interfund transactions are eliminated in the government-wide statements.

Fund Financial Statements: Governmental fund financial statements are reported using the cash receipts and disbursements basis of accounting modified as required by the Oklahoma Department of Education to include investments and inventories on hand, encumbrances issued and warrants outstanding. The fund financial statements provide reports on the financial condition and results of operations of governmental fund categories.

The District reports the following major governmental funds:

General Fund is the primary operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Building Fund is used to account for resources restricted by statutes for ad valorem taxes designated for repair, maintenance, acquisition and construction of buildings.

Debt Service Fund – The District accounts for the accumulation of funds for the periodic payment of general long-term debt in this fund.

CCPFA 2018 Bond Fund 32 – is used to account for proceeds from long-term financing and revenues and expenditures related to authorized construction and other capital asset acquisitions.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Additionally, the District reports the following fund types included in the Other Governmental Funds column:

Special Revenue Funds – The District accounts for resources restricted or committed to specific purposes other than debt service or capital projects where the foundation for the fund is those resources or if the fund is legally mandated in special revenue funds.

Capital Project Funds -- The proceeds from long-term financing and revenues and expenditures related to authorized construction and other capital asset acquisitions are accounted for in a capital projects fund.

Permanent Fund – The District reports resources that are restricted to the extent that only earnings, and not principal, may be used to support the District’s programs in this fund.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

As to the basis of accounting, the basic financial statements are essentially prepared on a basis of cash receipts and disbursements modified as required by the regulations of the Oklahoma Department of Education as follows:

- Encumbrances represented by purchase orders, contracts, and other commitments for the expenditure of monies and are recorded as expenditures when approved.
- Vendor obligations due and payable for goods and services received are recorded as a payable until paid.
- Warrants/Checks payable are recorded as liabilities when issued.
- Investments and inventories are recorded as assets when purchased and reduced when used.
- Capital assets in the government-wide statements are recorded when acquired and depreciated over their useful lives.
- Long-term debt reported in the government-wide statements is recorded when incurred.
- Accrued compensated absences are recorded as an expenditure and liability when the obligation is incurred.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

This regulatory basis of accounting differs from accounting principles generally accepted in the United States of America, which would have required the government-wide financial statements as well as the fiduciary fund financial statements to be presented on the accrual basis of accounting. The fund financial statements under accounting principles generally accepted in the United States of America would have been presented on the modified accrual basis of accounting. These financial statements are presented on the basis of accounting described above.

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Collateral in the form of obligations of the U.S. government or its agencies, municipalities or the State of Oklahoma is required for demand deposits and certificates of deposit for all amounts not covered by federal depository insurance.

Permissible investments include direct obligations of the United States government and agencies; certificates of deposit of savings and loan associations, and bank and trust companies; and savings accounts or savings certificates of savings and loan associations, banks and trust companies.

Investments for the District are reported at historical value. The investments held by the District as equity securities were donated.

Inventories

The value of consumable inventories at June 30, 2019 is not material to the financial statements. On the government-wide financial statements, United States Department of Agriculture (USDA) food commodities are recorded as revenue at fair value as of the date of receipt and as an expense when used. USDA food commodities are not reported in the governmental funds.

Capital Assets

Capital assets, which include land, land improvements, buildings, buses and vehicles, machinery and equipment, and construction in progress, are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets

are defined by the government as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the District, is depreciated using the straight-line method over the following estimated useful lives.

<u>Assets</u>	<u>Years</u>
Land Improvements	15
Buildings	20 – 40
Buses & Vehicles	5 – 10
Machinery and Equipment	3 – 10

Net Position

When the District incurs an expense for which it may either use restricted or unrestricted net position, it uses restricted net position first unless unrestricted net position will have to be returned because they are not used.

Net assets on the Statement of Net Position – Regulatory Basis include the following:

Net Investment in Capital Assets, – The component of net position that reports the difference between capital assets less both accumulated depreciation and the outstanding balance of debt that is directly attributable to the acquisition, construction and improvement of these capital assets.

Restricted for Building Services – The component of net position that reports the excess of property taxes and other revenues collected in excess of expenses for operation of the District’s buildings. This amount is restricted by Oklahoma Statutes.

Restricted for Child Nutrition – The component of net position that report the assets restricted for use by the Child Nutrition program.

Restricted for Debt Service – The component of net position that report the assets restricted for payment of principal and interest on general long-term debt.

Restricted for Alternative Education – The component of net position that report the assets restricted for alternative education programs.

Restricted for School Organizations – The component of net position that report the assets restricted for use by student organizations and extracurricular activities. This amount is restricted by Oklahoma Statutes.

Restricted for Scholarships – The component of net position that report the assets restricted for scholarships.

Unrestricted – The difference between assets and liabilities that is not reported as restricted for any other purposes.

Fund Equity

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The District has classified the original funds donated in the Endowment Fund as being nonspendable as these amounts are legally required to be maintained intact.
- Restricted: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The District has classified amounts restricted by state statute, donors and external grantors in this classification.
- Committed: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Education. These amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same type of action (resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The District has classified school organization activities as being committed because their use is governed by Board of Education action.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- **Assigned:** This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Education or through the Board of Education delegating this responsibility to the superintendent through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund. The District has assigned funds for interest earnings to the special revenue funds and capital project funds where earned by the budgetary process.
- **Unassigned:** This classification includes the residual fund balance for the General Fund. The Unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

As of June 30, 2019, fund balances are comprised of the following:

	General Fund	Building Fund	Sinking Fund	CCPFA 2018 Bond Fund 32	Other Governmental Funds	Total Governmental Funds

The District would typically use restricted fund balances first, followed by committed resources, and then assigned resources as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

Property Tax Revenues

The District is authorized by state law to levy property taxes which consist of ad valorem taxes on real and personal property within the District. The County Assessor, upon receipt of the certification of tax levies from the county excise board, extends the tax levies on the tax roll for submission to the county treasurer prior to October 1. The county treasurer must commence tax collection within fifteen days of receipt of the tax rolls. The taxes are due one-half prior to January 1 and the balance prior to April 1. If the first payment is not made timely, the entire tax becomes due and payable on January 1. Second half taxes become delinquent on April 1 of the year following the year of assessment.

Property Tax Revenues (Continued)

If not paid by the following October 1, the property is offered for sale for the amount of taxes due. The owner has two years to redeem the property by paying the taxes and penalty owned. If at the end of the two years the owner has not done so, the purchaser is issued a deed to the property.

State Revenues

Revenues from state sources for current operations are primarily governed by the state aid formula under the provisions of Article XVIII, Title 70, Oklahoma Statutes. The State Board of Education administers the allocation of state aid funds to school districts based on information accumulated from the districts. Approximately 38% of the District's revenue comes from state sources.

After review and verification of reports and supporting documentation, the State Department of Education may adjust subsequent fiscal period allocations of money for prior year errors disclosed by review. Normally, such adjustments are treated as reductions or additions of revenue of the year when the adjustment is made.

The District receives revenue from the state to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical programs.

II. BUDGETARY INFORMATION

The District is required by law to prepare an annual budget. No later than October 1, each Board of Education shall prepare a financial statement and estimate of needs to be filed with the applicable county clerk and the State Department of Education. Once the county excise board has approved the estimate of needs, the Board shall adopt a final budget within 45 days or the second regularly scheduled board meeting. No later than 15 days prior to adoption of a final budget, the Board must conduct a public hearing for purposes of taking public comments.

A final budget may be revised upon approval of the Board of Education in open meeting.

A budget is legally adopted for the General Fund, Building Fund, Child Nutrition Fund, Coop Fund and Sinking Fund that includes revenue and expenditures. Budgets generally assume the expenditure of all available resources. Therefore, when the legal budget is prepared, it is assumed these funds will not have a carryover balance to a subsequent year. Program revenue received but not spent is restricted and deferred to a subsequent fiscal year.

III. DEPOSITS AND INVESTMENTS

Custodial Credit Risk - Custodial credit risk for deposits is the risk that in the event of a bank failure, the District's deposits may not be returned or the District will not be able to recover collateral securities in the possession of an outside party. The District's policy requires collateral for demand deposits and certificates of deposit for all amounts not covered by federal deposit insurance. As of June 30, 2019, cash deposits and investments were fully insured or collateralized by a pledging bank's agent in the District's name.

Investment - The District's investment of \$37,666 at June 30, 2019, represents equity securities valued at historical value that were donated to the District. These securities are uninsured and exposed to the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of the investment.

VI. EMPLOYEE RETIREMENT SYSTEM

Teachers' Retirement System of Oklahoma

Plan Description - The District contributes to the state-administered Oklahoma Teachers' Retirement System ("TRS"), a cost-sharing, multiple-employer public employee retirement system. The System is administered by a board of trustees. TRS provides retirement, disability and death benefits to plan members and beneficiaries. Oklahoma State Statute 70-17 assigns the authority to establish and amend benefit provisions to the TRS Board of Trustees. The System issues a publicly available report that includes financial statements and required supplementary information for TRS. That report may be obtained by contacting the Oklahoma Teachers' Retirement System.

Benefits Provided – The System provides defined retirement benefits based on members’ final compensation, age, and term of service. In addition, the retirement program provides for benefits upon disability and to survivors upon the death of eligible members. Title 70 O.S. Sec. 17-105 defines all retirement benefits. The authority to establish and amend benefit provisions rests with the State Legislature.

Funding Policy – Under the System, contributions are made by the District, the State of Oklahoma, and participating employees. Participation is required for all teachers and other certified employees and is optional for all other regular employees of public educational institutions who work at least 20 hours per week.

Contributions – In accordance with *Oklahoma Statutes*, System members are required to contribute 7.00% of applicable compensation. For the year ended June 30, 2019, qualifying employee contributions were reduced by a retirement credit of \$133,839 provided by Enrolled House Bill 1873 and paid by the State of Oklahoma as on-behalf payments. For the year ended June 30, 2019, the District had a statutory contribution rate of 9.5% plus 7.70% as a match for salaries funded by federal programs. The contribution requirements of System members and the District are established and may be amended by the state legislature.

The District’s contributions to TRS (net of retirement credit paid by the State of Oklahoma) for the years ended June 30, 2019, 2018 and 2017 were \$1,765,219, \$1,579,265 and \$1,522,845, respectively, equal to the required contributions for each year.

Pension plan fiduciary net position – Detailed information about the pension plan’s fiduciary net position is available in the separately issued TRS financial report that can be obtained at <http://www.ok.gov/trs/>.

VII. OTHER POST EMPLOYMENT BENEFITS (OPEB)

In addition to the retirement plan described in Note VI, the District participates in the state-administered Supplemental Health Insurance Program (OPEB Plan) within Teachers’ Retirement System of Oklahoma (the OPEB System), which is a cost-sharing multiple-employer defined benefit OPEB plan administered by the Teacher Retirement System (TRS).

Plan Description – The OPEB System pays a monthly health insurance premium supplement for each retired member who is enrolled in the health insurance plan provided by the State and Education Employees Group Health and Dental Insurance plan or in an insurance program provided by a participating education employer who provides health insurance coverage to former employees, provided the retired member had at least ten (10) years of Oklahoma service prior to retirement.

Benefits Provided – All retirees are eligible except for special retirees (as defined) and spouses and beneficiaries as long as they have at least 10 years of service. Retirees who elect such coverage receive the smaller of (i) a Medicare supplement benefit, if eligible, or (ii) an amount

between \$100 and \$105 per month, depending on service and final average compensation. Payments made on the retirees' behalf to the Employees Group Insurance Division of the Office of Management and Enterprise Services, if the member continues health coverage under that Plan, or (ii) to the member's former employer, if the member retains health coverage under a plan maintained by the former employer.

Contributions – Employer and employee contributions are made based upon the TRS Plan provisions contained in State Statute Title 70, as amended. However, the statutes do not specify or identify any particular contribution source to pay the health insurance subsidy. The cost of the subsidy averages 0.007% of normal cost, as determined by an actuarial valuation.

OPEB plan fiduciary net position – Detailed information about the OPEB plan's fiduciary net position is available in the separately issued TRS financial report that can be obtained at <http://www.ok.gov/trs/>.

VIII. COMMITMENTS AND CONTINGENCIES

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

The District is a defendant in lawsuits. Although the outcome of these lawsuits is not presently determinable, the District believes the resolution of these matters will not have a material adverse effect on the financial condition of the District. Should a judgment be awarded against the District, it would be levied through the District's sinking fund over a three-year period pursuant to state law.

The District entered into several construction-related contracts during the fiscal year, which include additions, new construction, and remodeling of school buildings. As of June 30, 2019, the District had outstanding construction-related commitments totaling \$4,597,957 that will be financed from proceeds from CCPFA 2018 Bond Fund 32.

Subsequent to June 30, 2019, the District entered into \$26,784 of construction-related projects to be financed from Bond fund 36 and CCPFA 2018 Bond Fund 32.

IX. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft, damage and destruction of assets, errors and omission, injuries to employees, life and health of employees, and natural disasters for which the District purchases commercial insurance. There have been no significant reductions in coverage from prior year and settlements have not exceeded coverage in the past three years.

X. LEASE REVENUE BOND AGREEMENTS

On September 1, 2013, the Board of Education entered into ground lease and sublease agreements with the Carter County Public Facilities Authority (CCPFA), a public trust, for the purpose of facilitating the issuance of the bonds, to provide security for payment of the bonds, and to enable the District to utilize the bond proceeds for the construction and placement of improvements on real property. The lease agreements will remain in effect to June 30, 2027. The Authority advanced \$19,700,000 in lease revenue bonds, series 2013, to the District for the acquisition and construction of buildings and improvements. The District will use money received from General Obligation Debt to repay the lease. The advanced funds are being held in a trust and District remits applications for payments. The capital assets acquired and constructed have been shown as capital assets on the District's statement of net position. The remaining balance of the advanced fund is reported as Restricted Cash in CCPFA 2013 Bond Fund 30 on Balance Sheet of Governmental Funds and on the Statement of Net Position.

On August 1, 2018, the Board of Education entered into ground lease and sublease agreements with the Carter County Public Facilities Authority (CCPFA), a public trust, for the purpose of facilitating the issuance of the bonds, to provide security for payment of the bonds, and to enable the District to utilize the bond proceeds for the construction and placement of improvements on real property. The lease agreements will remain in effect to June 30, 2034. The Authority advanced \$27,255,000 in lease revenue bonds, series 2018, to the District for the acquisition and construction of buildings and improvements. The District will use money received from General Obligation Debt to repay the lease. The advanced funds are being held in a trust and District remits applications for payments. XI. TAX ABATEMENT

The State of Oklahoma has authorized by the Oklahoma State Statutes Title 31 to offer homestead and Veterans exemptions to Ad Valorem property taxes. These exemptions reduce the ad valorem taxes remitted to the District.

The State of Oklahoma has authorized by Oklahoma Statutes 62-850 the creation of tax increment financing (TIF) districts. These districts are intended to provide incentives and exemptions from taxation within certain areas to encourage investment, development and economic growth. The District is subject to tax abatements granted by the City of Ardmore. The City of Ardmore created TIF District #2 in May 2003, amended the project plan in August 2016, and projected the TIF to terminate December 31, 2021. The purpose of TIF District #2 is to develop the Ardmore Commons, Ardmore Family Entertainment Center, Market Street Shopping Center, and surrounding areas. This TIF district reduces the ad valorem taxes remitted to the District over the term of the agreement.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

To the Board of Education
Ardmore School District, No. I-19, Carter County, Oklahoma
Ardmore, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Ardmore School District No. I-19, Carter County, Oklahoma, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Ardmore School District No. I-19, Carter County, Oklahoma's basic financial statements and have issued our report thereon dated March 23, 2020. Our report included an adverse opinion on U.S. generally accepted accounting principles because the District prepares its financial statements on a prescribed regulatory basis of accounting.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Ardmore School District No. I-19, Carter County, Oklahoma's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Ardmore School District No. I-19, Carter County, Oklahoma's internal control. Accordingly, we do not express an opinion on the effectiveness of Ardmore School District No. I-19, Carter County, Oklahoma's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control

that might be material weakness or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Ardmore School District No. I-19, Carter County, Oklahoma's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Internal Control Over Compliance

Management of Ardmore School District, No. I-19, Carter County, Oklahoma is responsible for establishing and maintaining effective internal control over compliance referred to above. In planning and performing our audit, we considered Ardmore School District, No. I-19, Carter County, Oklahoma's internal control over compliance with the requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Ardmore School District, No. I-19, Carter County, Oklahoma's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
